Mission Statement

In a spirit of excellence, integrity, and dedication, the Almurtajiz Group is committed to providing timely, accurate, clear and complete agreements to support states, clients for futuristic, innovative & transformative achievements.

Vision Statement

To become the world most accessible & affordable institution where rational governments & clients go when they need finance & execution of their projects to create better every-day life for many people.

Introduction

Based in our company's International business research & development, we planned to serve in the field of Sustainable Development Programs as a global concern. That entails us to build an effective global partnership with the global companies and specialists to achieve 17 Sustainable Development Goals (SDGs). The global partnership aimed at sharing the knowledge and skills, mobilization of global resources, implementation of advanced technologies, and filling in the development gap in Africa specially & worldwide generally.

As the result, we focused and have managed to access the financial, technical, knowledge, and technological capabilities to finance and invest in SDGs & related businesses.

We are strongly connected & collaborate with mega financiers who have an experienced team in providing financial solutions for states, companies and individuals. In addition, we established strong consortium & joint ventures with partners that maintain relationships with banks, financial institutions, institutional investors and private capital sources, including not limited to Top European Banks: Deutsche, Barclays, HSBC, Credit Suisse, UBS, ING & Abn Amro Banks.

We arrange finance & Execution of projects through the process of implementation of Multi Financial Program which consists of the Concession Agreements, the Power Purchase Agreements (PPA) where applicable, General Service Agreements (GSA), other relevant agreements with **Governments & private sectors that able to provide collaterals, Sovereign Guarantees & Bankable Guarantees** preferable (RWA& SBLC).

Corporate Responsibility:

Our core objective is to have sustainable development goal implemented and its positive impact embodied in the communities of the countries in which we arranged the project finance and execution.

We will raise the employability through pushing the executers to go for training & sub-contracting the local small companies and improving of the quality life of the surrounding communities as the Business Human Rights.

We will work with the governments we signed MOU/JV with to support fiscal transparency and to strengthen governance for local, regional and national development.

Our utmost and paramount responsibility is to collaborate with the governments to undertake the affirmative action & positive discrimination to the disadvantaged group including women, disables, members of smaller racial group, war, globalization & climate change victims to get fair share of the opportunities available.

Green economy, renewable energy, climate change, environmentally friendly materials, transparency, equality, participation & partnership, health & Safety are constant issues of high concerns while we are delivering our business.
